Bell Labs Technical Journal

IEEE *Xplore*® Digital Library Subscription Option

Take advantage of the industry's best telecommunications research

IEEE has partnered with Alcatel-Lucent to bring the *Bell Labs Technical Journal*, along with previous Alcatel-Lucent journals, to the IEEE *Xplore* digital library. These peer-reviewed journals highlight key research and development activities across Alcatel-Lucent.

Bell Labs Technical Journal delivers key benefits for your research team:

- Drive new ideas, designs, and applications with cutting-edge research
- Develop better solutions faster by understanding the technology landscape
- Increase productivity by reviewing previous research so you don't reinvent the wheel
- Accelerate innovation and patent development with convenient access to proven research all in one place
- Increase scholarly output and new research development
- Stay ahead of the technology curve with the latest publications

Comprehensive coverage of telecommunications research

With a goal to identify the current challenges in information and communications technology (ICT), and to find solutions for those challenges, the *Bell Labs Technical Journal* publishes papers and letters by Alcatel-Lucent researchers, scientists, engineers, and technologists.

The topics covered include:

- Bandwidth Management
- Communications Infrastructure
- Communications Networks
- Ethernet Networks
- Internet Telephony
- LTE
- Next-Generation Networks
- Optical Networks
- Security Design
- Wireless Technology and more

Bell Labs Technical Journal Quick Facts

Access the industry's most respected telecommunications research:

Unlimited, full-text access to the *Bell Labs Technical Journal*

Complete archive to previous Alcatel-Lucent journals:

- *Bell System Technical Journal* (1922–1983)
- *AT&T Bell Laboratories Technical Journal* (1984)
- *AT&T Technical Journal* (1985–1996)

Over 6,200 documents available

This content is the source of many significant contributions in telecommunications and other related fields that has had considerable impact on the technological base of the global economy.

Please note that pricing can vary based on the number of authorized users and sites. For a custom quote, contact an IEEE Sales Representative.

Bell Labs Technical Journal: Delivered through the IEEE *Xplore* Digital Library

Access respected technology research that generates results

IEEE *Xplore* includes top-ranked journals and technology research that is cited in patents three times more often than any other publisher. With over 3 million full-text articles and papers, IEEE *Xplore* is your gateway to more than 30% of the world's current literature in electrical engineering, electronics, and computer science.

Find relevant research faster with powerful search tools

IEEE *Xplore* combines an easy-to-use interface with powerful search tools that make finding relevant research faster and more efficient.

Search: Intelligent features such as convenient type-ahead, a functional search breadcrumb trail, and a "Refine/Expand Results" module let you modify and find results easier than ever before.

Personalize: You can also personalize IEEE *Xplore* to create targeted saved searches and table of contents alerts, set personal preferences, and take advantage of enhanced features like search history and My Projects.

IEEE *Xplore* also provides:

- Basic, Advanced & Command search options
- IP and Shibboleth/Athens authentication
- INSPEC® abstract/citation and bibliographic records
- Persistent links (OPAC)
- Daily content updates

Get the latest research in a wide range of technologies:

- Aerospace and Defense
- Biometrics
- Computer Hardware and Software
- Electronics
- Medical Devices
- Nanotechnology
- Optics
- Power Engineering
- Robotics
- Semiconductors
- Smart Grid
- Telecommunications
- Wireless Technology and more
