

Bell Labs Technical Journal

IEEE *Xplore*[®] Digital Library Subscription Option

Take advantage of the industry's leading telecommunications research

IEEE has partnered with Alcatel-Lucent to bring the *Bell Labs Technical Journal*, along with previous Alcatel-Lucent journals, to the IEEE *Xplore* digital library. These peer-reviewed journals highlight key research and development activities across Alcatel-Lucent.

Bell Labs Technical Journal delivers key benefits for your research team:

- **Drive new ideas**, designs, and applications with cutting-edge research
- **Develop better solutions faster** by understanding the technology landscape
- **Increase productivity** by reviewing previous research so you don't reinvent the wheel
- **Accelerate innovation** and patent development with convenient access to proven research all in one place
- **Increase scholarly output** and new research development
- **Stay ahead of the technology curve** with the latest research

Comprehensive coverage of telecommunications research

With a goal to identify the current challenges in information and communications technology (ICT), and to find solutions for those challenges, the *Bell Labs Technical Journal* publishes papers and letters by Alcatel-Lucent researchers, scientists, engineers, and technologists.

The topics covered include:

- Bandwidth Management
- Communications Infrastructure
- Communications Networks
- Ethernet Networks
- Internet Telephony
- LTE
- Next-Generation Networks
- Optical Networks
- Security Design
- Wireless Technology and more

Bell Labs Technical Journal Quick Facts

Access the industry's most respected telecommunications research:

Unlimited, full-text access to the *Bell Labs Technical Journal*

Complete archive to previous Alcatel-Lucent journals:

- *Bell System Technical Journal* (1922–1983)
- *AT&T Bell Laboratories Technical Journal* (1984)
- *AT&T Technical Journal* (1985–1996)

Over 6,300 documents available

The source of many significant contributions in telecommunications and other related fields that has had considerable impact on the technological base of the global economy.

Please note that pricing can vary based on the number of authorized users and sites. **For a custom quote, contact an IEEE Sales Representative.**

Access respected technology research that generates results

IEEE Xplore includes **top-ranked journals and technology research that is cited in patents three times more often than any other publisher.** With more than four million full-text articles and papers, IEEE Xplore is your gateway to more than 30% of the world's current literature in electrical engineering, electronics, and computer science.

Find relevant research faster with powerful search tools

IEEE Xplore combines an easy-to-use interface with powerful search features that make finding relevant research faster and more efficient.

Search: Intelligent features such as convenient type-ahead, a functional search breadcrumb trail, and a "Refine/Expand Results" module let you modify and find results easier than ever before.

Personalize: You can also personalize IEEE Xplore to create targeted saved searches and table of contents alerts, and set personal preferences.

Collaborate: Now integrated with the new IEEE Collaborate™ online communities and private groups, it is easier than ever for users to collaborate and organize their project documents.

IEEE Xplore also provides:

- More than four million documents in full-text PDF format, with more than two million in a robust, dynamic HTML format
- Multiple authentication options for on-site, remote, and mobile users
- INSPEC® abstract and citation records
- New mobile-friendly design
- Daily content updates

Get the latest research in a wide range of technologies:

- Aerospace and Defense
- Biometrics
- Computer Hardware and Software
- Electronics
- Medical Devices
- Nanotechnology
- Optics
- Power Engineering
- Robotics
- Semiconductors
- Smart Grid
- Telecommunications
- Wireless Technology
