

IEEE Communications Library

IEEE Xplore® Digital Library Subscription Option

Take advantage of innovative communications research with a specialized subscription

The IEEE Communications Library offers unlimited access to today's most respected telecommunications research—with eight core IEEE telecommunications publications and two key telecommunications conferences, plus the flexibility to view other articles from the IEEE Xplore digital library. Get access to the information used by leaders in the telecommunications industry and stay on top of emerging technologies.

IEEE Communications Library delivers key benefits for your research team:

- **Drive new ideas**, designs, and applications with cutting-edge research
- **Develop better solutions faster** by understanding the technology landscape
- **Stay ahead of advancements** and benchmark competitor research
- **Increase productivity** by reviewing previous research without having to reinvent the wheel
- **Accelerate innovation and patent development** with convenient access to proven research all in one place
- **Share vital information** with a company-wide online file cabinet

See what your colleagues are reading with the IEEE Xplore file cabinet

Share downloaded documents with colleagues by storing them in a company-wide online file cabinet. Once each unique document is in the file cabinet, anyone in the company can access it without using another download—making it easy to work together and fuel innovation.

Note: The shared file cabinet stores a maximum of 5,000 documents

Delivered through the IEEE *Xplore*® Digital Library

Access respected technology research that generates results

IEEE *Xplore* includes top-ranked journals and technology research that is cited in patents three times more often than any other publisher. With more than 5 million full-text documents, IEEE *Xplore* is your gateway to more than 30% of the world's current literature in electrical engineering, electronics, and computing.

Find relevant research faster with powerful search tools

IEEE *Xplore* combines an easy-to-use interface with powerful search features that make finding relevant research faster and more efficient.

Search: With a robust search engine, Basic, Advanced, and Author search options and a "Refine/Expand Results" module let users modify and find results more easily.

Personalize: Users can also personalize IEEE *Xplore* to create targeted saved searches and table of contents alerts, and set personal preferences.

New Features: These include improved discoverability of content including Most Popular filter, My Favorite Journal alerts, and enhanced search history; remote access options to ensure users are seamlessly connected to the content they need; My Research Projects feature; and the option to follow your favorite IEEE author with new Author Alerts.
