IEEE Xplore® Digital Library Subscription Option

Superior technology research—and a subscription that grows with your company

Advance innovation with the IEEE Xplore digital library subscription designed for organizations with growing research needs. IEEE Enterprise provides access to technology's most trusted research—from IEEE and other highly regarded publishers—with **flexible pricing levels** that meet the needs and budgets of any size company.

IEEE Enterprise delivers key benefits for your research team:

- **Drive new ideas**, designs, and applications with cutting-edge research
- **Develop better solutions faster** by understanding the technology landscape
- **Stay ahead of advancements** and benchmark competitor research
- **Increase productivity** by reviewing previous research without having to reinvent the wheel
- **Accelerate innovation and patent development** with convenient access to proven research all in one place
- **Share vital information** with a company-wide online file cabinet

See what your colleagues are reading with the IEEE Xplore file cabinet

Share downloaded documents with colleagues by storing them in a company-wide online file cabinet. Once each unique document is in the file cabinet, anyone in the company can access it without using another download—making it easy to work together and fuel innovation.

Note: The shared file cabinet stores a maximum of 5,000 documents

IEEE Enterprise

Delivered through the IEEE *Xplore*® Digital Library

Access respected technology research that generates results

IEEE *Xplore* includes top-ranked journals and technology research that is cited in patents three times more often than any other publisher. With more than 5 million full-text articles and papers, IEEE *Xplore* is your gateway to more than 30% of the world's current literature in electrical engineering, electronics, and computer science.

Find relevant research faster with powerful search tools

IEEE *Xplore* combines an easy-to-use interface with powerful search features that make finding relevant research faster and more efficient.

Search: With an upgraded search engine, Basic, Advanced, and Author search options and a "Refine/Expand Results" module let users modify and find results more easily.

Personalize: Users can also personalize IEEE *Xplore* to create targeted saved searches and table of contents alerts, and set personal preferences.

New Features: These include the newly upgraded *MyXplore* smartphone app, mobile-friendly pages, and a related articles module that makes precise recommendations based on user interests. Leverage code and datasets in IEEE articles with the integration of Code Ocean and IEEE *DataPort*™.
