IEEE Industry Bookshelf

Delivered through the IEEE *Xplore®* Digital Library

IEEE now offers an easy way to access the eBook titles they need at a price for every size company.

The IEEE Industry Bookshelf offers full-title access to relevant partner eBook collections, hosted in IEEE *Xplore*, including Artech House, Now Publishers, and Morgan and Claypool. Curate a library of the most applicable titles in a shared online file cabinet.

IEEE has partnered with these leading publishers to bring essential eBooks in technology, engineering, computer science, and more to IEEE *Xplore*. Each eBook included in this collection has practical and applicable content - ideal for the practicing engineer who is looking for support addressing questions in their work projects.

The IEEE Industry Bookshelf delivers key benefits:

- **Drive new ideas,** designs, and applications with practical and relevant information from leading eBook collections
- **Develop better solutions faster** by understanding the technology landscape
- **Accelerate innovation and patent development** with convenient access to guidance on best practices all in one place
- **Stay ahead of the technology curve** with the latest information, authored by leaders in the field
- **Increase productivity** by reviewing previous research without having to reinvent the wheel

See what your colleagues are reading with the IEEE *Xplore* file cabinet

Share downloaded titles with colleagues by storing them in a company-wide online file cabinet. Once each unique eBook title is in the file cabinet, anyone in the company can access it without using another download—making it easy to work together and fuel innovation.

Quick Facts

Access to hundreds of titles, with 100+ titles introduced each year

Authors are from leading universities and have strong IEEE affiliations

Offers hard-to-find niche quality content as well as solutions in a wide range of engineering areas

Presents insights and answers to the toughest engineering challenges

Available as an add-on to existing subscriptions or as a stand-alone product.

IEEE Industry Bookshelf
Delivered through the IEEE *Xplore®* Digital Library

Artech House eBooks

Explore today's cutting-edge technology in antennas, RF/microwave design, communications, computer security, signal processing, and much more. Explore topics critical to the industry and take advantage of the latest information, written by the world's leading authorities.

Morgan & Claypool Synthesis eBooks

Keep current on a wide variety of technology areas with approximately 1,100 titles synthesizing important research on developing topics. The collections connect quantitative data with qualitative data, and also extend into areas such as ethics, economics, and technology's impact on society.

Now Publishers Foundations and Trends eBooks

This collection of high-quality eBook titles provides a quick, trustworthy introduction to emerging topics in engineering and computer science. These peer-reviewed eBooks, with an average of 150 pages, summarize important and timely monographs, allowing readers to learn about trending topics quickly and easily.

Find relevant information faster with powerful search tools:

The eBooks are searchable in IEEE *Xplore* by title, keyword, or subject, which will return all titles relevant to your query. Keyword or subject searching allows users to find the topic of interest easily, while a title search allows users to view an eBook title's home page.

IEEE *Xplore* also provides:

- More than 5 million documents in full-text PDF format, with more than three million in a robust, dynamic HTML format
- Multiple authentication options for on-site, remote, and mobile users
- Abstract/citation and bibliographic records for subscribed content
- Mobile-friendly design
- Daily content updates
