

IEEE Journals Library Plus

IEEE Xplore® Digital Library Subscription Option

Stay competitive with the most current technology research

IEEE Journals Library Plus provides unlimited, full-text access to all IEEE journal and magazine articles published in the current year and previous two years, plus 500 document downloads to view other articles from the IEEE Xplore digital library. Stay on top of emerging technologies with access to the leading research used by today's most innovative companies.

IEEE Journals Library Plus delivers key benefits for your research team:

- **Drive new ideas**, designs, and applications with cutting-edge research
- **Develop better solutions faster** by understanding the technology landscape
- **Stay ahead of advancements** and benchmark competitor research
- **Increase productivity** by reviewing previous research without having to reinvent the wheel
- **Accelerate innovation and patent development** with convenient access to proven research all in one place
- **Share vital information** with a company-wide online file cabinet

See what your colleagues are reading with the IEEE Xplore file cabinet

Share downloaded documents with colleagues by storing them in a company-wide online file cabinet. Once each unique document is in the file cabinet, anyone in the company can access it without using another download—making it easy to work together and fuel innovation.

Note: The shared file cabinet stores a maximum of 10,000 documents

Quick Facts

Get the information your company needs:

Unlimited, full-text access to all IEEE journal and magazine articles published in the current year plus a rolling two year backfile

500 article downloads to access any other content, including:

- 195 IEEE journals, magazines, and transactions titles, (older than two years)
- All IEEE-sponsored annual conference titles
- *IBM Journal of Research and Development* archive
- IET: *E&T Magazine* plus proceedings from conferences and events
- MIT Press: eight journal titles
- VDE Verlag: 20+ conference titles
- *Bell Labs Technical Journal* archive
- *SMPTE Motion Imaging Journal* and SMPTE conference papers
- American Geophysical Union *Radio Science*
- Oxford University Press: 26 journal titles
- Several eBooks collections containing more than 43,000 full-text documents

Select from approximately 5 million full-text documents

IEEE Journals Library Plus

Delivered through the IEEE *Xplore*® Digital Library

Access respected technology research that generates results

IEEE *Xplore* includes top-ranked journals and technology research that is cited in patents three times more often than any other publisher. With approximately 5 million full-text articles and papers, IEEE *Xplore* is your gateway to more than 30% of the world's current literature in electrical engineering, electronics, and computing.

Find relevant research faster with powerful search tools

IEEE *Xplore* combines an easy-to-use interface with powerful search features that make finding relevant research faster and more efficient.

Search: With a robust search engine, Basic, Advanced, and Author search options and a "Refine/Expand Results" module let users modify and find results more easily.

Personalize: Users can also personalize IEEE *Xplore* to create targeted saved searches and table of contents alerts, and set personal preferences.

New Features: These include improved discoverability of content including Featured Authors, Featured Articles, and News and Updates; new remote access options to ensure users are seamlessly connected to the content they need; the ability to download complete PDFs and issues for select content sets; and the option to follow your favorite IEEE author with new Author Alerts.

IEEE *Xplore* also provides:

- Approximately 5 million documents in full-text PDF format, with more than three million in a robust, dynamic HTML format
- Multiple authentication options for on-site, remote, and mobile users
- Abstract/citation and bibliographic records for subscribed content
- Mobile-friendly design
- Daily content updates

Get the latest research in a wide range of technologies including:

- Aerospace and Defense
- Biometrics
- Computer Hardware and Software
- Cyber Security
- Electronics
- Internet of Things (IoT)
- Medical Devices
- Nanotechnology
- Optics
- Power Engineering
- Robotics
- Semiconductors
- Smart Grid
- Telecommunications
- Wireless Technology
