Delivered through the IEEE *Xplore*® Digital Library

NEW!

IEEE has partnered with River Publishers to bring a new collection of eBooks to the IEEE *Xplore* digital library.

With approximately 190 titles dating back to 2015, River Publishers eBooks provide today's professionals and students with cutting-edge data from the world's leading authorities. This collection provides essential information on a wide range of engineering areas with concentrated content including circuits and systems, information science and technology, security and digital forensics, and more.

## River Publishers eBooks Library delivers key benefits:

- **Drive new ideas**, designs, and applications with cutting-edge research
- **Develop better solutions faster** by understanding the technology landscape
- **Increase scholarly output** and new research development
- **Accelerate innovation and patent development** with convenient access to proven research all in one place
- **Stay ahead of the technology curve** with the latest information, authored by leaders in the field
- **Increase productivity** by reviewing previous research without having to reinvent the wheel

## River Publishers eBooks Library content areas:

This collection of eBook titles emphasizes leading areas

- Automation, Control, and Robotics
- Biomedical Engineering
- Circuits and Systems
- Communications
- Electronic Materials and Devices
- Energy Management
- Information Science and Technology
- Management Sciences
- Mathematical Sciences
- Optics and Photonics
- Polymer Science
- Renewable Energy
- Security and Digital Forensics
- Signal, Image and Speech Processing
- Software Engineering
- Transport Technology

## Quick Facts

Access to approximately 190 titles, with up to 30 new titles introduced each year

Many authors are IEEE members and volunteers from leading universities and corporations around the world

Provides today's professionals and students with cutting-edge books from the world's top authorities

Intended for graduate level students, researchers, engineers and professionals

Backlist to 2015

KBART and MARC records available in IEEE *Xplore*

## Available as an add-on to existing subscriptions or as a stand-alone product:

### Annual Subscription Option

Provides leased access to current year eBook titles, plus leased access to the backlist of more than 190 titles.

### Purchase Option with Perpetual Access\*

Provides perpetual access to current year eBook titles, plus perpetual access to the backlist of more than 190 titles. An option to expand the collection by purchasing new frontlist titles each year is also available.

\* Perpetual access to the collection is offered via IEEE *Xplore*

## Access respected technology research that generates results

IEEE *Xplore* includes **top-ranked journals and technology research that is cited in patents three times more often than any other publisher**. With more than 5 million full-text articles and papers, IEEE *Xplore* is your gateway to more than 30% of the world's current literature in electrical engineering, electronics, and computer science.

## Find relevant research faster with powerful search tools

The River Publishers eBooks Library is searchable in IEEE by title, keyword, or subject, which will return all titles and eBook chapters relevant to your query. A title search allows users to view an eBook title's home page with table of contents linking to full-text chapters.

### IEEE *Xplore* also provides:

- More than 5 million documents in full-text PDF format, with more than two million in a robust, dynamic HTML format
- Multiple authentication options for on-site, remote, and mobile users
- INSPEC® abstract and citation records
- Mobile-friendly design
- Daily content updates

### About River Publishers:

River Publishers is an international publisher, headquartered in Denmark, who publishes research monographs, professional books, textbooks, edited volumes and journals with a focus on key research areas within the fields of Science and Technology. From highly-cited researchers to industry luminaries and Fellows of the IEEE, River Publishers authors are respected experts whose books embody their dedication to engineering excellence, creative thinking, and practical problem solving.
